

**JOB TITLE: Engineering Intern**  
**LOCATION: Rapid City, SD**

**REPORTS TO:**  
Department Head

**EXEMPT STATUS:**  
Non-exempt

**Job Description:**

Our engineering intern positions offer an opportunity for a currently enrolled engineering student to gain practical engineering experience related to mechanical, electrical, or architectural engineering. Responsibilities include routine design tasks and field observations related to building systems engineering, allowing an opportunity to work with an integrated mechanical and electrical design team.

Opportunities may include full-time summer employment or part-time internship while currently enrolled in an engineering program.

**QUALIFICATIONS:**

**Education:** Minimum second year or later mechanical, electrical, or architectural engineering student (sophomore through senior level).

**Registration:** None required.

**Experience:** May be entry level.

**Required Skills:** Technical problem solving skills and understanding of design principles.

**Computer and Equipment Skills:** Microsoft 365, AutoCAD, or Revit skills desirable.

**Applicants:**

This is a part-time, hourly, non-exempt position. Qualified applicants submit resume, references, and compensation history by mail, fax or e-mail to:
